

Arts, W., Severeijns, Hoogduin, R.C.A. & E. de Haan (1990). De Inventarisatielijst Dagelijkse Bezigheden (IDB): Een replicatie-onderzoek naar betrouwbaarheid en validiteit (The reliability and validity of the IDB: a replication). *Gedragstherapie*, 23, 1, 17-27.

*Abstract: Assessed the validity and reliability of the Inventarisatielijst Dagelijkse Bezigheden (IDB) ("Daily Activities Inventory List"), a standardized Dutch self-assessment questionnaire for measuring obsessive-compulsive behavior. Human subjects: 246 adolescents and adults (aged 16-74 yrs) (obsessive-compulsive disorder); 78 normal adolescents and adults (aged 17-68 yrs) (controls). Ss were diagnosed by a psychiatrist or a psychologist according to Diagnostic and Statistical Manual of Mental Disorders (DSM-III) criteria.*
